GCE Mechanics M1 (6677) Paper 1

Edexcel is one of the leading examining and awarding bodies in the UK and throughout the world. We provide a wide range of qualifications including academic, vocational, occupational and specific programmes for employers.

Through a network of UK and overseas offices, Edexcel's centres receive the support they need to help them deliver their education and training programmes to learners.

For further information, please call our GCE line on 0844 576 0025, our GCSE team on 0844 576 0027, or visit our website at www.edexcel.com.

EDEXCEL GCE MATHEMATICS
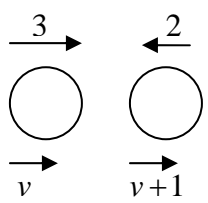

General Instructions for Marking

1. The total number of marks for the paper is 75.

2. The Edexcel Mathematics mark schemes use the following types of marks:

   - **M** marks: method marks are awarded for 'knowing a method and attempting to apply it', unless otherwise indicated.

   - **A** marks: Accuracy marks can only be awarded if the relevant method (M) marks have been earned.

   - **B** marks are unconditional accuracy marks (independent of M marks)

   - Marks should not be subdivided.

3. Abbreviations

   These are some of the traditional marking abbreviations that will appear in the mark schemes and can be used if you are using the annotation facility on ePEN.

   - bod – benefit of doubt

   - ft – follow through

   - the symbol   will be used for correct ft

   - cao – correct answer only

   - cso - correct solution only. There must be no errors in this part of the question to obtain this mark

   - isw – ignore subsequent working

   - awrt – answers which round to

   - SC: special case

   - oe – or equivalent (and appropriate)

   - dep – dependent

   - indep – independent

   - **dp decimal places**

   - **sf   significant figures**

   - ✱   The answer is printed on the paper

   - ⌐ The second mark is dependent on gaining the first mark
